

**HEAVY METAL CONTENT IN COSMETIC & AUTOMOTIVE
MIRRORS**

In each case the concentration of the metal in question was below the detection limit of the analytical method employed. The EPA test methods used to determine the content of the heavy metals listed above are as follows:

	EPA Method Used	
	TCLP Analysis	Total Metals Analysis
Lead	E1311/SW6010	6010/E200.7
Mercury	E1311/E245.1	SW-7471
Cadmium	E1311/SW6010	6010/E200.7
Hexavalent Chromium	E1312/S512B	SW3060

Material test reports are available upon request. If we can be of further assistance please let us know.

**MATERIAL SAFETY DATA SHEETS FOR PRODUCTS MANUFACTURED BY
THE _____ COMPANY**

This is in reply to your request for Material Safety Data Sheets.

The _____ company is complying fully with the Federal Occupational Safety and Health Administration (OSHA) "Hazardous Communications" standard (29 CFR 1910.1200). The product(s) for which you have requested Material Safety Data Sheets are considered "articles" as defined in the OSHA "Hazardous Communications" standard. The standard does not apply to articles (29 CFR 1910.1200 (b)(6)(v)). Consequently, as articles these products are exempt from the Material Safety Data Sheets (MSDS) provisions.

Articles as defined in 29 CFR 1910.1200(b) & (c);

"A manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependant in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts (as determined under paragraph (d) of this section), and does not pose a physical hazard or health risk to employees."

However, since it is impossible to anticipate all possible applications and situations in which the products may be used, we urge you to determine that your use of the products is in accordance with the Federal Standard definition of an article.

Thank you for your interest in our products.

Regards,

Plant Engineer
