Film Compliance Statement

The following statements can be made about the _____ film:

1) The _____ film does not contain any of the metals, or their derivatives, that may be derived from the 'conflict minerals', as described in the **Dodd-Frank Wall Street Reform and Consumer Protection Act (2010)**.

These materials would include:

- **Columbite-Tantalite (Coltan) -> Tantalum (Ta)**
- **Cassiterite -> Tin (Sn)**
- **Gold (Au)**
- **Wolframite -> Tungsten (W)**

2) The _____ film does not contain the following '**heavy metal**' materials (either by addition or formation): **Lead, Cadmium, Hexavalent Chromium and Mercury**.

3) The _____ film does not contain the chemical substance **Bisphenol-A (BPA)**.

4) The _____ film does not contain any chemical compounds in the **Perfluorooctane Sulfonate (PFOS) or Perfluorooctanoic Acid (PFOA) groups**.

5) The _____ film does not contain **Dimethyl Fumarate (DMF)**.

6) The _____ film has not been exposed to **radiation contamination**.

Should you require additional information, please contact _____.

Subject: **CA PROPOSITION 65**
(SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986)

Date: **May 14, 2018**

Product: _____

To:

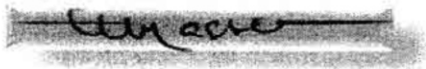

We, _____, certify that:

All _____ manufactured Polyester Films including _____ supplied to _____ do **not contain** materials known to the state of California to cause cancer or reproductive toxicity (found in Proposition 65 list).

However, _____ Polyester films do contain Antimony Trioxide which is listed on the Proposition 65. Please refer to the explanation below.

Antimony Trioxide (CAS 1309-64-4) is utilised as a polymerization catalyst in the production of the base PET resin. Added amount is < 275 ppm. (0.025%).
Migration testing on films does not detect Antimony (Sb), and the material is not a risk. (CalProp65 does not include threshold levels).

PET film

The following statements can be made about the

PET film:

- 1) The **PET film** does not contain any of the metals, or their derivatives, that may be derived from the **'conflict minerals'**, as described in the **Dodd-Frank Wall Street Reform and Consumer Protection Act (2010)**.

These materials would include:

- **Columbite-Tantalite (Coltan) -> Tantalum (Ta)**
- **Cassiterite -> Tin (Sn)**
- **Gold (Au)**
- **Wolframite -> Tungsten (W)**

- 2) The **PET film** does not contain the following **'heavy metal' materials** (either by addition or formation):

- **Lead**
- **Cadmium**
- **Hexavalent Chromium**
- **Mercury**

- 3) The **PET film** does not contain the chemical substance **Bisphenol-A (BPA)**.

- 4) The **PET film** does not contain any chemical compounds in the **Perfluorooctane Sulfonate (PFOS) or Perfluorooctanoic Acid (PFOA) groups**.

- 5) The **PET film** does not contain **Dimethyl Fumarate (DMF)**.

- 6) The **PET film** has not been exposed to **radiation contamination**.
